ENCH250: COMPUTER METHODS IN CHEMICAL ENGINEERING, Spring 2006

Instructor:
Dr. Panos Dimitrakopoulos
Office: Room 1227B, Chemical & Nuclear Engineering Bldg
Phone: (301) 405-8166, Email: dimitrak@eng.umd.edu
Office hours: Mondays and Wednesdays: 2:45-3:30 pm (or by appointment: dimitrak@eng.umd.edu)
Course web: Blackboard Learning System
Class: MWF: 10:00-10:50am (CHE 2108); Friday noon-12:50pm (CHE 2108) Dis

Teaching Assistant:
Vivek H. Dwivedi
Office: Room 1210 (TA office), Chemical & Nuclear Engineering Bldg
Phone: (240) 441-6584, Email: vivekd@umd.edu
Office hours: Tuesdays and Thursdays: 4:00-5:00 pm (or by appointment: vivekd@umd.edu).

Course Description:
This course introduces undergraduate students of chemical and biomolecular engineering to those areas of computer methods which are currently most important in the engineering science as well as in their subsequent courses. In particular, the course includes the following topics from Numerical Analysis (the chapters’ numbers are from Chapra):

(a) Introduction to Serial and Parallel Computing (Ch. 1, 4)
(b) MATLAB: introduction and basic programming (Ch. 2, 3)
(c) Root Finding (Ch. 5, 6)
(d) Solution of Linear Systems of Equations (Ch. 7-11)
(e) Approximation and Interpolation (Ch. 12-15)
(f) Numerical Integration (Ch. 16, 17)
(g) Initial-Value Problems (Ch. 18)
(h) Review of CHEMCAD

All material taught during the semester is accompanied and explained via MATLAB.

Recommended Textbook:

This book is on reserve in the Engineering Library. Note that the library has also an array of books with similar titles; all of them may be used for further study.

Grading Policy:
Homework and Class Participation 30 % (Teams of three members)
Mid-term exam 30 %
Final exam 40 %
Homework Assignments:
Team-homework problems (to be solved by hand and by software) will be assigned on a regular basis. The homework must be submitted at the beginning of the class the date it is due. The problems and the solutions will be posted on the course web page.

Examinations:
All exams are “open-books”/“open-notes”. The “mid-term” exam will be one class period in length. Date for “mid-term” exam (subject to change): Friday March 17, 2006. Final Exam: the date is set by the University (Friday, May 19, 2006, 8:00-10:00 am).

Academic Honesty:
Plagiarism and academic dishonesty will not be tolerated, and suspected incidence will be referred to the Student Honor Council of the Judiciary Programs. For more information see: http://www.testudo.umd.edu/soc/dishonesty.html & http://www.studenthonorcouncil.umd.edu

The following passage is suggested by the Student Honor Council.

The University of Maryland, College Park has a nationally recognized Code of Academic Integrity, administered by the Student Honor Council. This Code sets standards for academic integrity at Maryland for all undergraduate and graduate students. As a student you are responsible for upholding these standards for this course. It is very important for you to be aware of the consequences of cheating, fabrication, facilitation, and plagiarism. For more information on the Code of Academic Integrity or the Student Honor Council, please visit http://www.studenthonorcouncil.umd.edu/whatis.html
