UNIVERSITY OF MARYLAND
COLLEGE PARK, MD

A. JAMES CLARK
SCHOOL OF ENGINEERING
Congratulations to our graduates. We are immensely proud of your academic and personal accomplishments, and glad—even in these challenging times—we can celebrate those achievements with your family and friends.

I want to express a very special thanks to those same families and friends for their support in making this special day possible.

As Clark School engineers we emphasize the importance of “Mpact:” Focusing our talents and energy on innovations with the potential to benefit the lives of others everywhere. As you advance in your career, we encourage you to stay focused on the ultimate goal of improving the world we share.

We look forward to hearing about your future achievements beyond our campus. Please share them with us!

Go Terps!

Dr. Robert M. Briber

Interim Dean and Professor

MESSAGE FROM THE DEAN
Dr. Robert M. Briber
Interim Dean and Professor

GUEST SPEAKER
Dr. Darryl J. Pines
President Designate,
University of Maryland

STUDENT SPEAKER
Chad Simon
Bachelor of Science Candidate,
Bioengineering

AWARDS & HONORS
Dr. Robert M. Briber
Interim Dean and Professor

CONFERRING OF DEGREES
Dr. Min Wu
Associate Dean, Graduate Studies
Dr. Kenneth Kiger
Associate Dean, Undergraduate Studies

SCROLL OF
GRADUATES NAMES
Leadership and Administration

ASSOCIATE AND ASSISTANT DEANS
Dr. Hugh Bruck, Associate Dean, Faculty Affairs
Dr. Kenneth Kiger, Associate Dean, Undergraduate Studies
Dr. Jelena Srebric, Associate Dean, Research
Dr. Min Wu, Associate Dean, Graduate Studies
Mr. Christopher Bender, Assistant Dean, Communication
Ms. Leslie Borak, Assistant Dean, External Relations
Ms. Maureen Meyer, Senior Assistant Dean, Administration and Finance
Dr. George Syrmos, Assistant Dean, Continuing Education, Maryland Applied Graduate Education
Mr. Jim Zahniser, Assistant Dean, Strategic Operations and IT

INSTITUTES AND PROGRAM DIRECTORS
Dr. William Bentley, Director, Robert E. Fischell Institute for Biomedical Devices
Dr. Thomas E. Murphy, Director, Institute for Research in Electronics and Applied Physics
Dr. Peter Sandborn, Director, Maryland Technology Enterprise Institute
Dr. Ankur Srivastava, Director, Institute for Systems Research
Dr. Eric Wachsman, Director, Maryland Energy Innovation Institute
Dr. Lei Zhang, Director, Maryland Transportation Institute

ALUMNI NETWORK
Ms. Elisabeth Goldwasser, (B.S. ’03), President, Engineering Alumni Network
Ms. Heather Medina, Director, Alumni Engagement & Outreach

SOLOIST
Mr. Dirk Holzman, B.S. ’20, Electrical Engineering, B.A. Vocal Performance

SPEAKERS
Dr. Darryll J. Pines, President Designate, University of Maryland
Mr. Chad Simon, B.S. ’20, Bioengineering
SOLOIST

Dirk Holzman

B.S. ’20, Electrical Engineering
B.A. ’20, Vocal Performance

Dirk Holzman is graduating with a bachelor’s degree in Electrical Engineering from the A. James Clark School of Engineering, as well as a bachelor’s degree in Vocal Performance from the School of Music. Dirk has previous internship experience at Northrop Grumman Corporation, Exelon Corporation, and RKF Engineering Solutions, LLC, working in a variety of sub-disciplines, including RF design, power distribution, renewable energy, and satellite communications. He was an A. James Clark School of Engineering Philip Merrill Presidential Scholar for 2019-2020.

During his time at UMD, Dirk participated in a wide variety of organizations across UMD, holding leadership roles in several groups. Dirk is a proud member of three honor societies, namely the Tau Beta Pi Engineering Honor Society, the Pi Kappa Lambda Music Honor Society, and the Alpha Lambda Delta Honor Society. He has performed in many School of Music events, including eight operas with the Maryland Opera Studio, two OperaTerps productions, and many concerts with the UMD Concert Choir and Men's Chorus, including performances with the Baltimore and National Symphony Orchestras. Outside of his academic involvement, he has coordinated for several Maryland Hillel organizations, including Ruach, UMD’s Reform community, KOR, an organization devoted to Jewish pluralism, and the Terp Nigun Circle, a music-sharing community that he co-founded.

Upon graduation, Dirk will be staying in the Maryland area to work as an Electrical Engineer with a focus in RF systems for Northrop Grumman. Dirk is excited to start a career in electrical engineering and apply his unique combination of technical and creative expertise to solve difficult, real-world problems. He also intends to remain an active professional musician by giving recitals, performing in operas, and leading services for local synagogues.
Dr. Darryll J. Pines  
*President Designate, University of Maryland*

Darryll J. Pines will become the University of Maryland’s 34th President this summer.

He served as Dean and Nariman Farvardin Professor of Aerospace Engineering at the University of Maryland’s A. James Clark School of Engineering from January 2009 to April 2020. He first arrived at the Clark School in 1995 as an Assistant Professor and then served as Chair of the Department of Aerospace Engineering from 2006 to 2009.

As Dean of the engineering school with over 6,000 students, Pines led the development and implementation of a strategy to improve teaching in fundamental undergraduate courses and raise student retention, achieve success in national and international student competitions, place new emphasis on service learning and grand societal challenges, promote STEM education among high school students, increase the impact of research programs, and expand philanthropic contributions to the school.

Pines was instrumental in securing a $219.5 million investment—among the largest gifts ever to a public university—from the A. James & Alice B. Clark Foundation. Building Together: An Investment for Maryland is funding need-based scholarships campus-wide, as well as graduate fellowships, faculty positions, infrastructure, and other initiatives.

Pines’ belief in the value of an inclusive and diverse community has underpinned his work. The percentage of women and underrepresented minorities in the UMD engineering undergraduate student body has grown to approximately 27 and 15 percent, respectively, during his time as Dean. According to Diverse Issues in Higher Education, the Clark School ranks among the top 10 in conferring the most B.S., M.S., and Ph.D. degrees to African-American students.

Pines is currently leading an initiative to pilot a first-of-its kind, nationwide, pre-college course on engineering principles and design. The pilot program, Engineering For US All (E4USA), will test the effectiveness of a standardized educational curriculum across multiple states.

Pines received a B.S. in mechanical engineering from the University of California, Berkeley. He earned M.S. and Ph.D. degrees in mechanical engineering from the Massachusetts Institute of Technology.
Chad Simon
B.S. ’20, Bioengineering

Chad Simon, a Chicago native, is graduating from the A. James Clark School of Engineering with a bachelor’s degree in Bioengineering. With the career aspiration to become a doctor, Chad has received a variety of experiences in both engineering and medical environments. He has worked as an engineering intern for Flexan LLC, where he learned about clean-room manufacturing for medical device components and how to reduce waste in manufacturing processes utilizing Lean Six Sigma tools. He also has interned at Shaare Zedek Medical Center, working in conjunction with the chief of hand surgery and a large 3D-printing corporation, Stratasys, where he developed a 3D-printed, realistic hand model for surgical resident training. On campus, he has performed research in the Bioinspired Advanced Manufacturing Lab under Dr. Ryan Sochol, investigating the integration of 3D printing and microfluidics to improve cell-sorting devices. Additionally, Chad has received the E. Robert Kent Scholarship three times, the Jeffrey C. & Sandra W. Huskamp Endowed Bioengineering Scholarship, and was recently inducted into Omicron Delta Kappa, a national leadership honor society.

While at UMD, Chad has been heavily involved in Kedma, a Jewish student social organization, where over a span of two years he held positions of Fundraising Chair, Vice President, and President. While serving Kedma, he helped organize a variety of social, charity, and educational programs. He was also a proud member of the Biomedical Engineering Society and a student a capella group, Kol Sasson. Furthermore, he is a proud alumnus of the University Honors program within the Honors College and the QUEST Honors Program (Cohort 30) within the Robert H. Smith School of Business. In QUEST, Chad has completed a number of consulting projects, including consulting for a Ugandan bioengineering company and a Maryland-based military telecommunication manufacturer, Thales. In his free time, he enjoys 3D printing, running, and seeing movies with friends at Hoff theater.

Upon graduation, Chad is moving back to Chicago, where he will attend University of Illinois at Chicago Medical School in the Innovation Medicine program. In addition to his medical studies, he will learn to develop solutions for clinical needs using his technical, multi-disciplinary background. He is excited to fuse his passions for engineering and medicine together to become an effective physician innovator and a proud representative of the Fischell Department of Bioengineering.

ABOUT THE A. JAMES CLARK SCHOOL of ENGINEERING

The A. James Clark School of Engineering at the University of Maryland serves as the catalyst for high-quality research, innovation, and learning, delivering on a promise that all graduates will leave ready to impact the Grand Challenges (energy, environment, security, and human health) of the 21st century. The Clark School is dedicated to leading and transforming the engineering discipline and profession, to accelerating entrepreneurship, and to transforming research and learning activities into new innovations that benefit millions.

Our broad spectrum of academic programs, including the world’s only accredited undergraduate fire protection engineering program, is complemented by a vibrant entrepreneurial ecosystem, early hands-on educational experiences, and participation in national and international competitions.

The Clark School is leading research advancements in aerospace, bioengineering, robotics, nanotechnology, disaster resilience, energy and sustainability, and cybersecurity. From the universal product code to satellite radio, SMS text messaging to the implantable insulin pump, our students, faculty, and alumni are engineering life-changing innovations for millions.

Learn more at www.eng.umd.edu.
CONGRATULATIONS

Class of 2020
