SCHOOL OF ENGINEERING

Waitlist vs. Hold File

What is the difference between a waitlist and a hold file?

- If a course no longer has available seats a **Waitlist** is an option if you meet the course requirements established by the department offering the course.
- The **Hold File** is a roster of students who wish to register for a course, but who do not meet the departmental restrictions. These students must be placed on the Hold File even though the course may have seats available. For courses with a hold file, students on the waitlist receive priority consideration over those on the hold file.

Seat Management

The campus employs a seat management plan designed to reserve a portion of seats in general education and a few selected other courses for students with fewer than 60 credits and incoming new students.

UNIV 100

Section 0604

What: The Student in the University

Where: EGR 1102

When: Thursdays 3:00 pm to 4:50 pm

Introduces students to University life. In a small classroom setting, students will explore how to successfully bridge the gap between high school and college. Study skills, career decision-making, and student development processes will be explored.
